

Extended OzDAFNE Tracker page – Ketones and illness

Use the Extended OzDAFNE Tracker page when you are following the OzDAFNE ketone and illness guidelines.

Photocopy this page as many times as you need to.

Total Daily Dose (TDD)

Total Daily Dose is the total of all the insulin (QA and BI) that you had on your last usual day. This includes any correction doses of QA.

TDD = 10 % of TDD = 20 % of TDD =

Note about TDD:

Your TDD may change over time. Work out your TDD each time you have an illness or raised ketones.
